

ROLE: REGISTERED CONSERVATION ARCHITECT
--

Successful Conservation Consultancy in Dublin 2 seeks an experienced Conservation Architect to join our growing team and to run a number of landmark conservation projects. We are a hard-working and tight-knit team and are looking for the right fit.

We offer an excellent opportunity to be involved in our growing architectural dept., as well as an attractive remuneration package that includes a competitive salary and a great working environment. There is provision for remote or hybrid working, and flexibility around hours.

The successful candidate will be:

- a registered Architect (RIAI or RIBA) with at least 5 years post qualification experience
- RIAI Grade 2 or 3 conservation accreditation or equivalent
- proficient in use of AutoCAD, Microsoft Word, Excel, PowerPoint, Outlook
- a team player with excellent work ethic and self-management skills
- capable of leading projects and managing a large workload

The successful candidate will have:

- a professional level of spoken and written English
- a high standard of report writing and excellent presentation skills
- an excellent understanding of Irish/European traditional building materials and best practice conservation
- experience in preparing design, statutory, tender and construction drawings and documentation
- knowledge of Irish Building and Planning Regulations
- Team player with excellent work ethic and self-management skills
- Capable of managing a large workload

Preferable but not essential:

- BIM (Revit)
- In Design
- Experience in retrofit of modern and traditional buildings
- Hygrothermal risk assessment experience/qualification

Applicants must have the right to work in Ireland. **To apply for this role please e-mail your application to fanregan@carrig.ie by 5pm, 31st July** – this should be a max. 3-page CV and 1-page cover letter, along with examples of your work/a portfolio. Thank you.
